SAFETY & CLEANING INSTRUCTIONS

READ THE SAFETY INSTRUCTIONS CAREFULLY BEFORE USING YOUR PROMPT FLEX BIRTHING SIMULATOR

DO's

Follow all instructions. Keep these instructions. Heed all warnings.

Only use the lubricant and simulated blood supplied with this product. Use of non-recommended fluid products may weaken or damage the simulator.

Wear gloves at all times and remove all jewellery items. Sharp surfaces such as finger nails and rings can lead to damage of silicone parts.

Always lubricate the cervix, birth canal and baby before each birth.

Clean the product with a damp soft cloth or sponge, using only warm water with mild detergent, after every training session. Clean off excess lubricant from all mother and baby surfaces.

STORAGE & TRANSPORTATION

Always ensure that the products are properly packed and secured during transportation and storage in order to prevent personal injury or damage to the product.

DON'Ts

Do not install near any heat sources, do not expose the product to flames or use near naked flame sources. Do not use flammable solvents near or on this product.

Do not use any attachments other than those supplied by the manufacturer.

Do not wear any jewellery items.

Do not disassemble the product or attempt to repair a faulty unit, please return the product to Limbs & Things for assessment and repair.

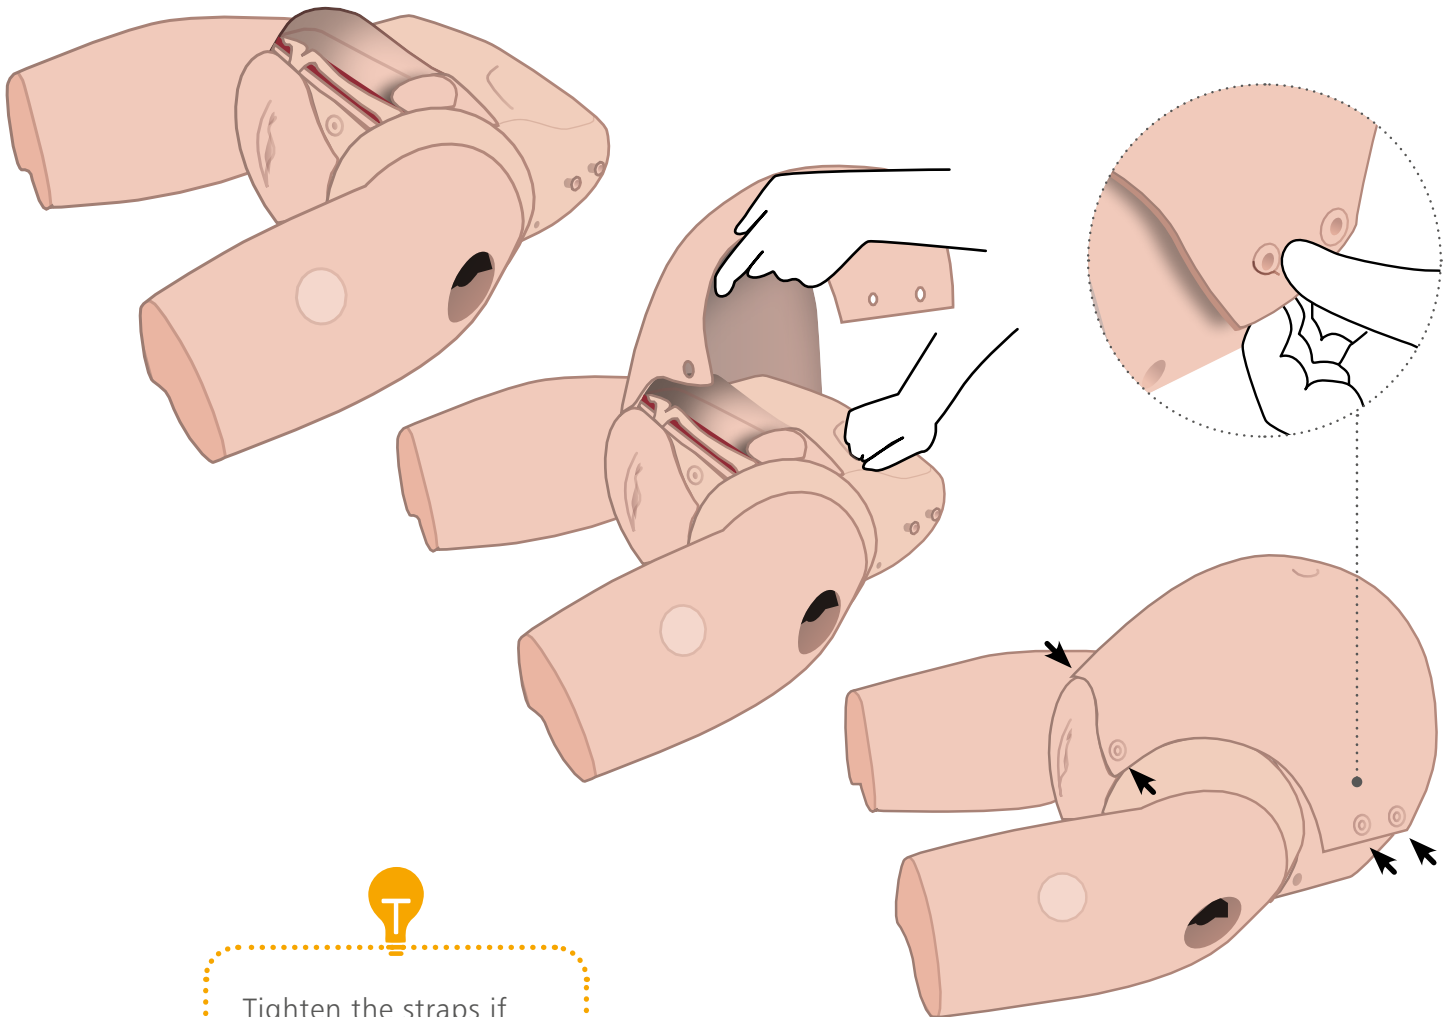

A poorly lubricated baby or placenta may damage the birth canal or the cervix as it is pushed through.

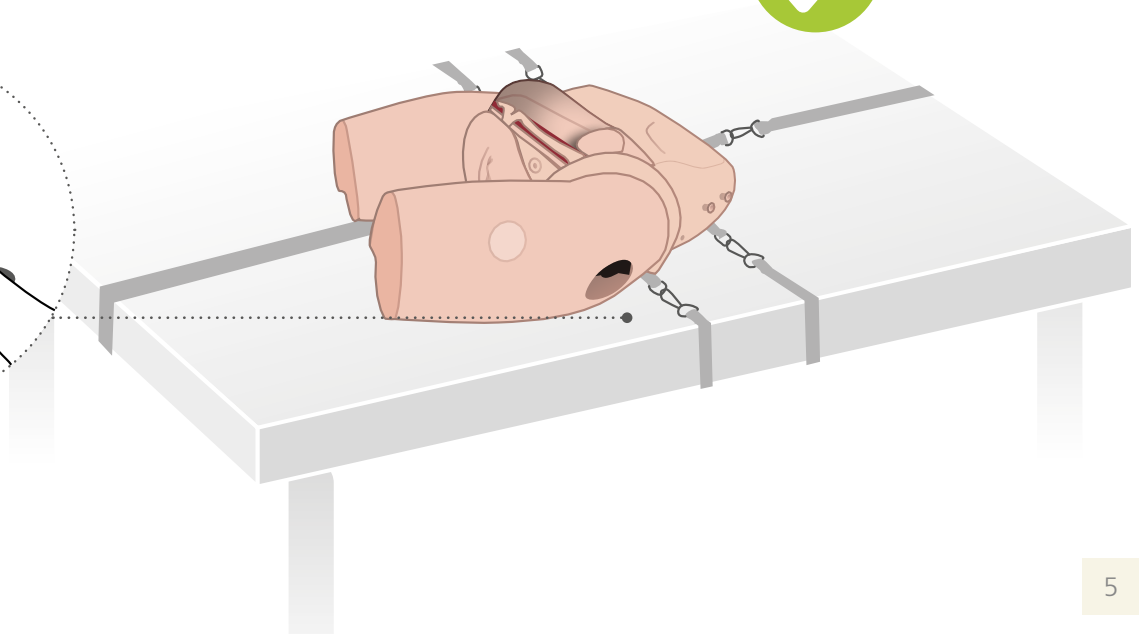

SET UP

ADDING/REMOVING THE ABDOMINAL SKIN

The abdomen can be added/removed easily to facilitate correct positioning of the baby within the pelvis if necessary.

Tighten the straps if necessary to secure the model to the table top.

SET UP

REMOVING THE CERVIX

DRILLS	CERVIX REQUIRED
Normal Birth	✓
Breech Birth	✗
O.V.D.	✗
Shoulder Dystocia	✗

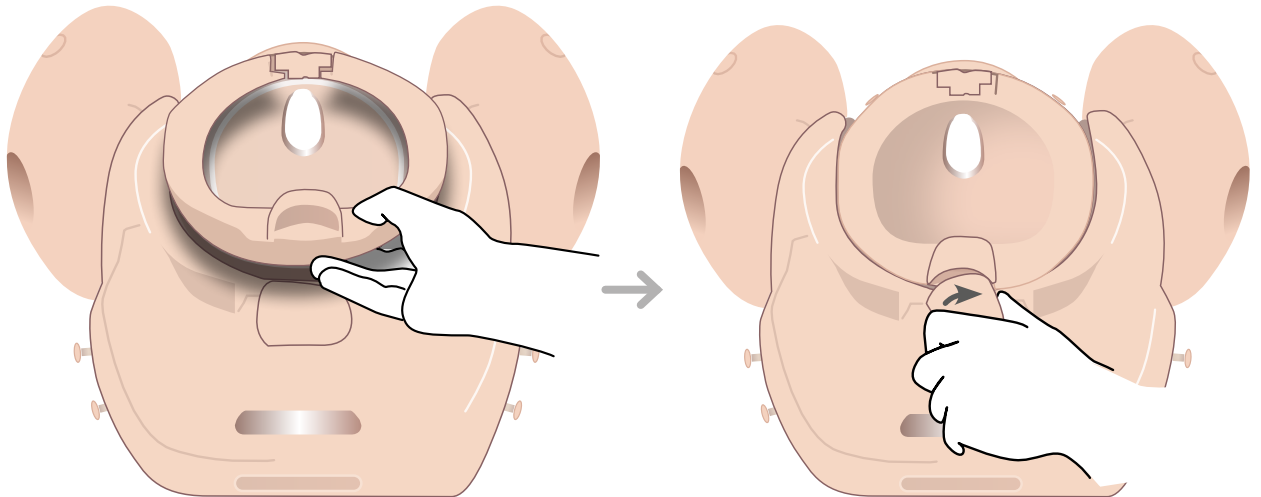

1

2

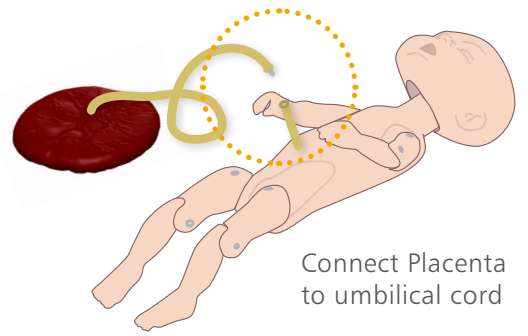

3

SET UP

SETTING UP THE DIFFERENT DRILLS

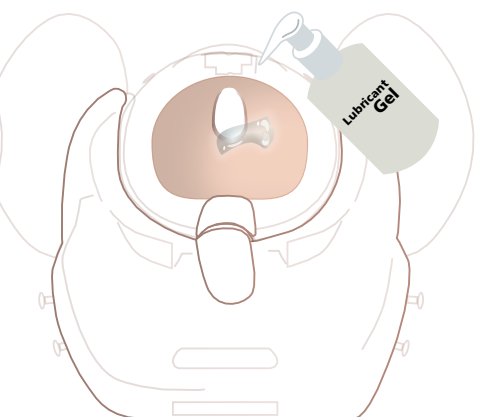

Always lubricate before each birth.

NORMAL BIRTH

EXTENDED BREECH BIRTH

SHOULDER DYSTOCIA

TRAINING

NORMAL BIRTH

Push the baby through the pelvis, rotating the baby as appropriate to mimic the mechanism of normal delivery.

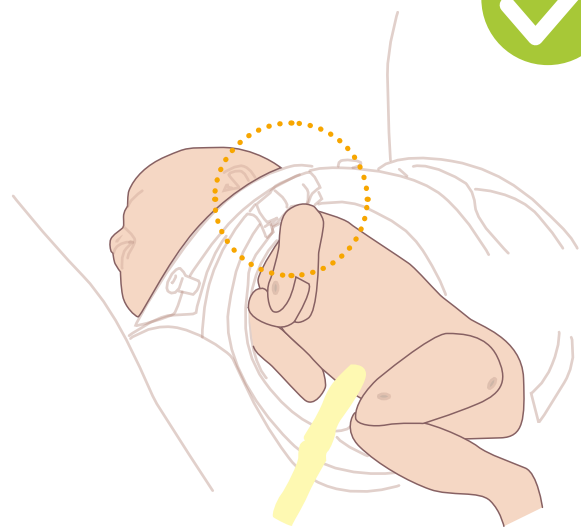

Push on the head to simulate contractions and maternal effort. Ensure the baby's arms remain flexed during the delivery.

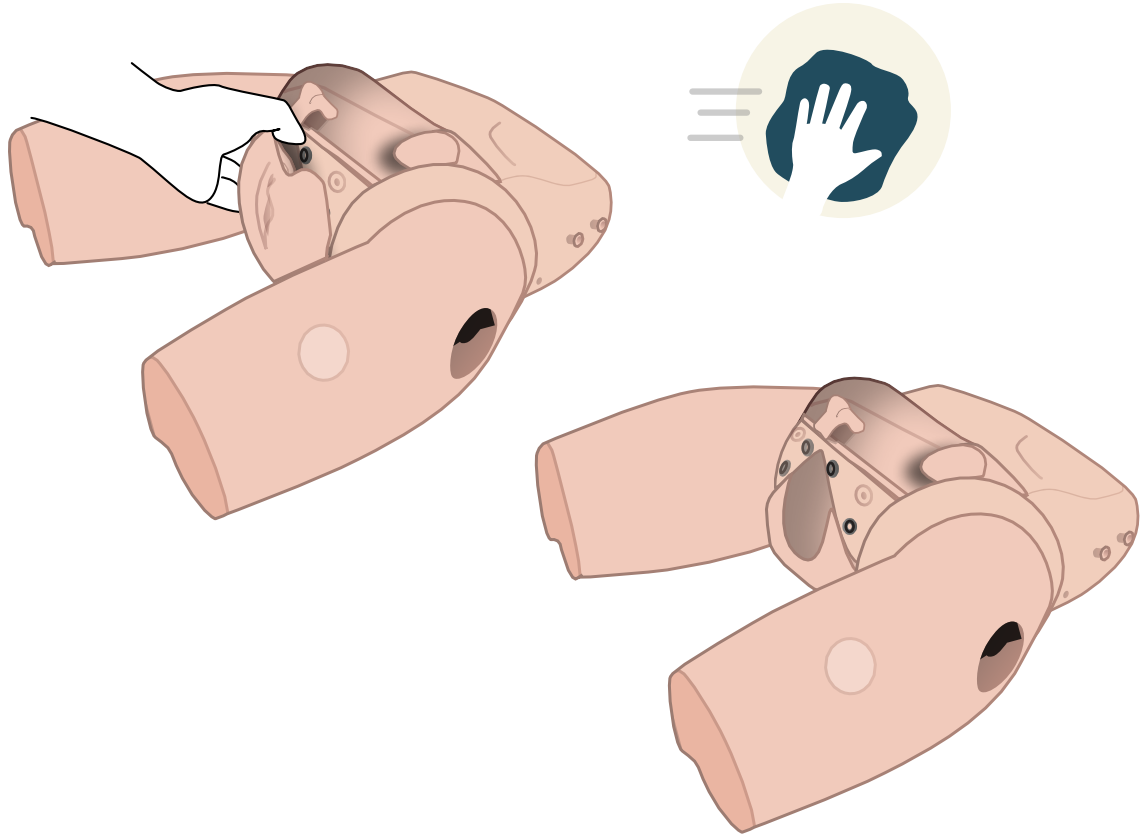

Ensure that the anterior shoulder of the baby is wedged behind the symphysis pubis.

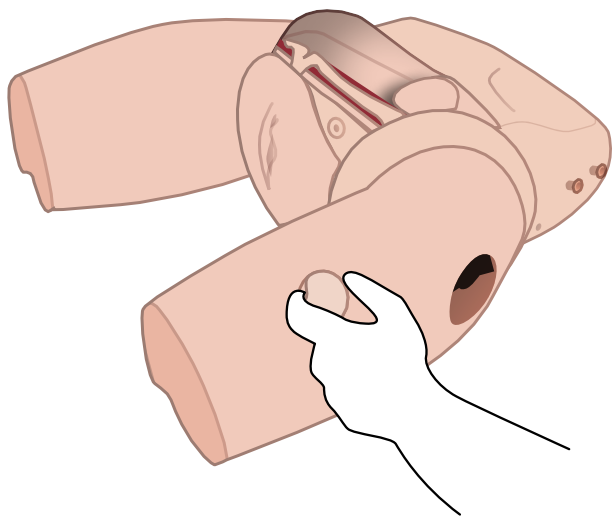

CLEANING & STORAGE

ADDING/REMOVING PERINEUM

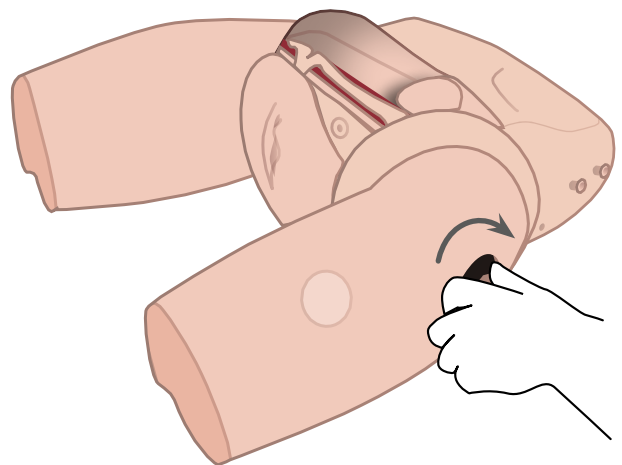

After each training session, clean all the lubrication from all mother and baby surfaces with a warm damp cloth.

REPLACE/CLEAN IM PADS

TIGHTEN/LOOSEN THE LEGS
